

420 Litre Blanket Warming and / or Fluid Warming Cabinets

The 420 Litre warming cabinet range is Malmet's most cost effective solution for large warming cabinet requirements. The cabinet has the largest capacity cabinet in the family of products giving it exceptional electrical efficiency.

- Stainless steel construction with insulation cavity. **Cool to touch** exterior surface.
- Double glazed doors for **inventory monitoring**. A 16mm gap between panes provides insulation and safe external temperature.
- Adjustable shelving
- **Capacity** for up to 30 blankets
or
- **Capacity** for up to 90 x 1 Litre bags of fluid
- Over heat protection and **temperature lock out**.
- **Fan assisted** convection heating.
- **Versatility** - cabinets can be supplied with 4 non-marking castors (2 fixed, 2 swivel and lockable)

Available in the following configurations:

- Freestanding with Floor Skirt
- Freestanding on Castors

REMEMBER:

Should I also add the matching accessories? NO as we do not sell them
