

HFB3 HANDS FREE KNEE OPERATED BASIN

The ACERO HFB3 Stainless Steel Knee Operated Hand Wash Basin is made from durable 304 grade stainless steel providing a stable and hygienic surface. The HFB3 is not only suitable for hospitality, education or public amenities, but also building sites, factories or anywhere hand washing is required. The water flow is activated by pressing the knee into the front panel which triggers the time valve for a set period. There is no better time to provide a safe hygienic hand washing option. Access to the plumbing is from the bottom to make it easy to maintain and cost effective.
