Building Product Information Requirements.

Class 1

Product Name: Mercer Tapware

WELS Water Efficiency Rating CONT.

Registration details can be found here: <https://www.waterrating.gov.au/>

Installation:

Mercer taps must be installed by professional and qualified trades people following the instructions on the relevant product technical data sheet if applicable.

Product Data and Installation Instructions available on each individual product page - example below:

<https://www.mercermade.co.nz/product/cologne-gooseneck-pullout-mixer-gunmetal>

Care and Maintenance:

Mercer tapware is available in stainless steel or coated with a durable coloured PVD layer. Clean with a soft microfibre cloth, warm water, and mild detergent such as dishwashing liquid. Avoid abrasive cleaning solutions, scouring pads, steel wool and sharp implements as these may potentially scratch the surface of the tapware. Do not clean with solvents.
